

Mi-TOR Range: the next generation of compact orbital floor machines

Prepare to revolutionize your cleaning routine with the all-new Mi-TOR Range of compact orbital floor machines. With Mi-TOR, Mi-TOR R, and Mi-TOR T, the future of floor cleaning is here. From small, hard-to-reach spaces to edge finishing and beyond, trust Mi-TOR Range to deliver exceptional performance, ensuring immaculate results and unparalleled convenience.

Mi-TOR

Mi-TOR R

Mi-TOR T

Mi-TOR: speed up cleaning operations, everywhere!

Mi-TOR is the mini orbital floor machine that has brought professional cleaning to the most difficult to reach places. Designed for efficiency, Mi-TOR allows you to speed up cleaning operations, while its lightweight design makes it incredibly simple to transport to various work environments, ensuring seamless cleaning wherever you go. With its rectangular-shaped base, Mi-TOR ensures optimal coverage and thorough cleaning in even the most challenging corners and edges.

Mi-TOR R: endless versatility enhanced by exceptional autonomy

Mi-TOR R's round base design enables effortless navigation and offers enhanced maneuverability, allowing you to clean with ease around obstacles and furniture. Its compact size and lightweight construction make this floor machine ideal for multi-level buildings and tight spaces, ensuring maximum productivity without compromising on performance.

Mi-TOR R stands out for its versatility, adapting seamlessly to any environment, whether in residential, commercial, or professional settings. Additionally, the battery-powered version is the only floor machine with up to 1.5 hours of autonomy, providing uninterrupted cleaning power for extended cleaning sessions.

Mi-TOR T: mastering precision cleaning

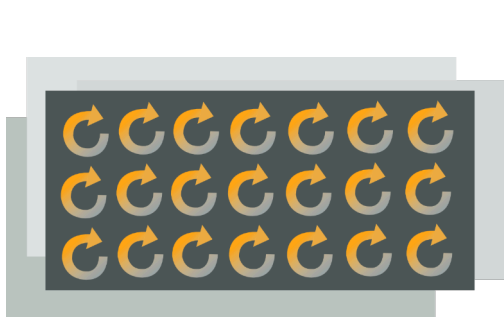

Mi-TOR T boasts a unique base with the traditional shape of precision orbital tools, setting new standards in compact floor cleaning technology.

Thanks to the shape of its base, Mi-TOR T is extremely precise and accurate in cleaning, allowing you to effortlessly navigate around furniture, reach tight corners, and clean along edges with unparalleled precision. Its lightweight and ergonomic design make it the perfect floor machine for professional cleaners, enabling them to work efficiently in multiple locations and environments, while minimizing fatigue and maximizing productivity.

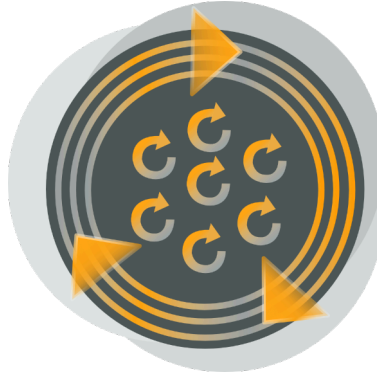

The power of the orbital technology

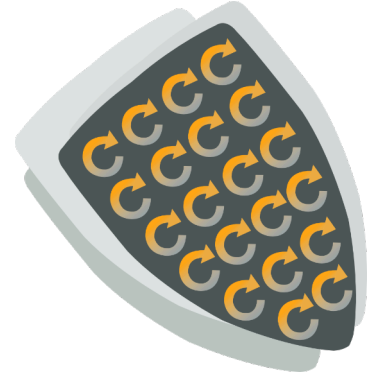

The orbital motion generates a constant orbit, causing numerous passages over the same surface area.

Mi-TOR T

The power of choice

Choose the corded version for continuous power and efficiency, or opt for the li-ion battery-powered version for unmatched freedom and convenience.

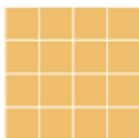

Mi-TOR Range: a comprehensive solution for diverse flooring needs:

Marble

Gres

Terracotta

Resin

Parquet

Concrete

Mi-TOR: your complete surface treatment solution:

Washing

Dewaxing

Fine grinding

Polishing
